ISSUE: EditShare backup reset database

Concerned platforms:

OS : Linux SQL database

Vernouillet, 28.11.2011

Issue:

Backup and erase SQL database, **ATTENTION this will kill all your database.**

Here is the procedure in command line

Backup database:

```
su
cd /opt/editshare/sql/
./backup.sh
```

Backup database:

```
su
rm -f mysql
mysql
```

now re-run the role assistant from the control panel, this should re-create the mysql database and the symlink.

of course you need root rights.

Pls. send us your feel back.
