Concerned platforms: New LW under Windows7 64, 32 or XP

Vernouillet, 31.07.2011

Issue :

Where is the MACHINE.NUM previously located in root as hidden file?

Answer:

New Lightworks structure incorporates this information now in the registry base to check it search for:

HKEY_LOCAL_MACHINE\SOFTWARE\Wow6432Node\Lightworks\Configuration

Check for reg key: machine.num does not have a number over 2500
